[redacted] called PPS on 21 June in regard to the career status of [redacted] Training Station. [redacted] DCFE, [redacted] had told [redacted] belonged to OTR.) 2. CA/PMG: Basic PM Enrollment

[redacted] called PPS on 21 June to arrange to interview the seven JOT's scheduled to take the three-month basic PM course. It was agreed that PPS would ask C/JOTP to forward brief biographical data on those students directly to CA/PMG, in lieu of the interview. At the same time [redacted] reported that SR has nominated a third DD/P candidate for the course, [redacted] This brings the possible enrollment over the original 10-12 mark, as follows:

25X1

JOT's (from OC #9)	7	confirmed
DD/P	3	two confirmed
Medic	1	confirmed
Logistics (proposed)	2	unconfirmed
Commo (proposed)	1	unconfirmed
	14	10 confirmed

25X1

25X1

PPS assured [redacted] that the R/TR registration process would check medical qualification. PPS informed [redacted] that OTR expects CA/PMG, as the sponsor of this training, to screen all applicants and to assure OTR that the trainees accepted are personnel whom CA/PMG agrees should have this training which is tailored to stated, CIA Contingency Force needs. The foregoing has been passed on to C/OS. The only problem of numbers in the course affects the first four weeks, the Sabotage Operations block, because TSD has asked to include three additional TSD personnel in the SO block only. C/OS will resolve this with TSD and [redacted]

3. Paramilitary Course/Jump Training

On 20 June 1960 [] asked for OTR policy with respect to participation in parachute jump training to be included in the new, three-month, paramilitary course scheduled to begin on 1 August 1960. After subsequent conversations with C/OS and Mr. [] it now stands that:

25X1

25X1

a. C/OS will confirm the number of jumps now planned (it is understood that there will be as many as but not more than five) and will ascertain how these jumps will fit into the training program.

b. C/CA/PMG would like all JOT's and DD/P trainees to complete the full, specified number of jumps.

c. C/CA/PMG believes that waiver of the jumping requirement should be permissible for Medical, Communications, Logistics, and other excepted trainees.

d. C/CA/PMG is responsible for screening enrollment in this course (it is assumed by PPS/TR that all trainees will be selectees for the CIA Contingency Force) and will request or endorse waivers of the parachute jumping requirement for individual trainees.

4. CA/PMG: []

25X1

Also on 20 June, [] called to inform OTR that [] has completed his present duty with the [] project. Although WH and FE have him "under consideration," [] next assignment has not yet been set. Meanwhile, he will be attached to CA/PMG and assigned the task of developing PM doctrine, particularly in the field of anti-guerrilla warfare. [] wanted to know if OTR had any doctrinal material available on this subject. PPS stated that OTR did not have any comprehensive, organized material on anti-guerrilla warfare as such, but that the Overseas Training Branch did have some related, paramilitary training matter on file. Accordingly, [] call upon [] and seek her ideas and assistance. [] should be able to develop material of definite value to both CA/PMG and OTR. C/OS has been informed of this conversation and concurs.

5. External Research

[redacted] advised PPS on 22 June that he has been assigned new duties by DD/P but will continue to keep some of his present responsibilities. One proposed change affecting OTR will bring State/BIR/External Research into direct contact with three CIA "users": DD/I [redacted], DD/P [redacted], and OTR [redacted]. [redacted] has advised the Chief, ERS.

6. JOT Paper

The redraft of the JOT paper has been completed and is being reproduced.

7. Educational Specialist

Arrangements were made with Dr. Acker of the Instructional Methods Branch, Ft. Belvoir, to have [redacted] and one of his associates visit Ft. Belvoir on Monday, 20 June, for the purpose of observing Belvoir's training aids. It is felt that since Belvoir makes such an extensive use of aids that are quite sophisticated in nature, [redacted] would get some new ideas and techniques for our aids.

25X1

25X1

[redacted] have been visiting certain language training classes this week with the intent of getting background material for a series of ITC's to be conducted for LAS.

25X1

On 22 June [redacted] met with [redacted] and his Area Staff with respect to instructor training situation. It was suggested that [redacted] be briefed by [redacted] as to the general objectives, concepts and methods of training by the Area Staff. Subsequent to this [redacted] will observe several different types of Area classes with the intent of suggesting any assistance that could be given in instructor training. These observations cannot be scheduled much earlier than the latter part of July because of present commitments, particularly with the ITC's scheduled for LAS.
